

D1  
address through said input means,

F1  
Cont'd  
a second screen display of customer-selectable options, the options comprising transmitting the transaction record to the destination address, printing the transaction record at said facility, and both transmitting the transaction record to the destination address and printing it at said facility, and wherein the transaction record is transmitted, printed, or both transmitted and printed, depending upon the option selected by the customer, and

a third screen display in which a number n is input through said input means, the number n representing a number of transaction records to transmit and comprising one new transaction record and n-1 past transaction records.

D2  
7. (TWICE AMENDED) A consumer transaction facility, comprising:

a display device;

an input device on which a consumer enters transactions according to options displayed on said display device; and

Sub  
F2  
a transaction receipt process displaying options on said display device to selectively receive a transaction receipt at a destination electronic mail address, to receive a transaction receipt as a paper receipt, and to receive a transaction receipt both at a destination electronic mail address and as a paper receipt, and receiving the transaction receipt at the destination electronic mail address, as a paper receipt, or both, depending upon the option selected by the consumer,

wherein a number n is input through said input device, the number n representing a number of transaction receipts to receive and comprising one new transaction receipt and n-1 transaction receipts.

8. (TWICE AMENDED) A method of performing transactions at a consumer transaction facility, comprising:

entering and storing a destination electronic mail address;

selecting whether to receive a transaction receipt both at the destination electronic mail address and as a paper receipt, and receiving the transaction receipt based upon the selection; and

entering a number n representing a number of transaction receipts to receive and comprising one new transaction receipt and n-1 past transaction receipts.

9. (TWICE AMENDED) A method of performing transactions at a consumer transaction facility, comprising:

entering and storing a destination electronic mail address;  
providing selectable options to receive a transaction receipt at the destination electronic mail address, as a paper receipt, or to receive a transaction receipt both at the destination electronic mail address and as a paper receipt, and receiving the transaction receipt based upon the selected option; and  
entering a number n representing a number of transaction receipts to receive and comprising one new transaction receipt and n-1 past transaction receipts.

Sub  
#2

10. (TWICE AMENDED) A method for performing transactions at a consumer transaction facility, comprising:

displaying selection options to transmit a transaction receipt to a destination address, print the transaction receipt at the consumer transaction facility, and both transmit the transaction receipt to the destination address and print the transaction receipt at the consumer transaction facility;

displaying options, if transmission of the transaction receipt to a destination address is selected, to transmit the transaction receipt to a pre-selected destination address or to a different destination address;

transmitting, printing, or both transmitted and printing the transaction receipt, depending upon the option selected by the customer; and

entering a number n representing a number of transaction receipts to transmit and comprising one new transaction receipt and n-1 past transaction receipts.

#### REMARKS

Claims 1-10 are pending in this application. The Examiner has objected to claims 3-6. Claims 1, 2, and 7-10 have been rejected. Amendments to claims 1 and 7-10 are presented in this response. No new matter is being presented, and approval and entry are respectfully requested.
